

BREED IDENTIFICATION DNA TEST

The Orivet Breed Identification DNA Test helps you discover the secrets buried in your dog's DNA. Understanding your dog's ancestry can assist you and your Veterinarian in creating an effective and personalized training, wellness, nutrition and medical program for your dog.

The Orivet Breed Identification DNA Test allows you to:

- Determine the breeds that make up your dog
- Gain insights into your dog's personality and behavior
- Discover genetic health secrets
- Develop a personalized health and wellness plan
- Screen hereditary diseases relevant to the breeds that make up your dog (upgrade option)
- Adult weight prediction
