

MIXED-BREED IDENTIFICATION DNA TEST & LIFE PLAN

The Orivet Breed Identification DNA Test and Life Plan helps you discover the secrets buried in your dog's DNA. Understanding your dog's ancestry can assist you and your Veterinarian in creating an effective and personalised training, wellness, nutrition and medical program for your dog.

The Orivet Breed Identification DNA Test and Life Plan allows you to:

- Determine the breeds that make up your dog
- Gain insights into your dog's personality and behaviour
- Discover genetic health secrets
- Develop a personalised health and wellness plan
- Screen hereditary diseases relevant to the breeds that make up your dog
- Adult weight prediction
- Improve communication with your veterinarian and other pet care providers.
